 4 weeks = CHF 1,000
 7 weeks = CHF 1,500
 8 weeks = CHF 2,000

Remaining Tuition

Following the payment of the security deposit, the remaining tuition is due by **May 15, 2017**.

student experiences

► Discover Leysin

Leysin is a village in the Swiss Alps with traditional Swiss wooden chalets and great sports facilities. Make sure you ride the historic cogtrain from Aigle to Leysin.

► Experience something new

Summer is the time to experience something new! Try a new sport, practice a new art or discover a new culture.

► Improve your English

With classes and activities being taught in English, there's no doubt you will improve your English language skills.

► Making international friends

Share a dorm room and be part of a faculty family with students from over 40 countries. You will definitely make some international friends here, perhaps even a new best friend.

► Fun activities and sports

Each week you can choose from a variety of activities and sports to participate in.

► Excursions in Switzerland

Visit local and regional attractions and experience Swiss cultural heritage.

parents

peace of mind

► Arrival & Departure

SIS staff will meet your child on arrival day at Geneva airport and bring them to campus. On departure day, they will also accompany your child to the airport to ensure safe departure.

► Caring Environment

Dorm rooms are shared so your child will never feel alone. There are also laundry facilities and a health center on campus with 24/7 supervision.

► Supervision

Your child will be supervised by staff with experience in boarding schools and summer camps. Students aged 7-11 are fully supervised at all times.

► Faculty Family

Composed of teachers with students of similar ages, the Faculty Family offers a chance to build trust in their SIS "family" in a new environment.

► Personal Improvement

Your child will improve their English, have new experiences and gain confidence.

► Application Process

leysin, switzerland

What makes Leysin so special?

Over the years, this small mountain village has reinvented itself to become an international center of recreation and education with the hospitality facilities and lifestyle that appeal to global visitors and students alike. As a popular Alpine resort with stunning vistas, Leysin hosts tourists throughout the year in its various hotels, guesthouses and chalets.

Art & Culture

Leysin's cultural heritage can still be seen today in the beautifully sculpted and decorated wooden buildings of the old village and in its traditional Swiss cuisine. LAS also hosts regular music concerts, from classical to jazz, at the Belle Époque Campus to the delight of students and villagers.

Sports

Along with spectacular skiing and snowboarding, Leysin boasts two sports centers offering a wide range of indoor and outdoor sports.

International Flavor

Leysin's current population of 4,000 is made up of 110 different nationalities, over 30% of whom are under 19 years of age.

streams

What is a stream?

“Stream” describes our subject areas of focus. By categorizing our academic and activity offerings in this way, we hope to make it easier to understand the goals of the Summer in Switzerland program. In terms of academic enrichment, we have identified five specific areas that provide a solid and interesting opportunity for students of any age.

Why have different streams?

Students who want a “summer school” can select classes within a single stream for an immersive academic experience. Students who are seeking a “summer camp” can select courses from several streams for a varied yet stimulating experience. Either way, our classes are designed to reinforce foundational academic skills necessary for students to be successful in school and beyond.

How do the streams differ by age group?

Alpine Adventure (ages 7-11)

For students in this age group the emphasis is not on gaining knowledge, but rather fostering curiosity while teaching skills and behaviors that lead to academic and personal success.

Alpine Exploration (ages 12-14)

Students in this age group still need to build a foundation for academic success. The five streams offered at SIS are high interest areas that teach skills through subjects that are interesting and applicable for their young lives.

Alpine Challenge (ages 15-18)

At this age, some students may have thought about careers or life after school. The five streams in the SIS program represent industries, skills, and knowledge we feel are an integral part of a 21st Century education.

3 weeks: June 24 - July 13

3 weeks: July 22 - August 9

alpine adventure

ages 7 - 11

Students in our Alpine Adventure (AA) program feel welcome, supported and safe in this fully supervised program. AA students will learn, play and socialize with peers from all over the globe. From the moment they arrive, students in our AA program are fully engaged—so much so, in fact, that most students simply do not have time to become homesick.

Students with the opportunity to strengthen language, math and technology skills and expand their knowledge of Switzerland and its culture. Afternoon activities provide opportunities for students to explore their creative sides with arts and crafts, sports, games and music. The evenings are spent either in large group activities or in smaller Faculty Family socials.

Our scenic mountain environment provides an ideal location for this group of adventurers. Morning classes are designed to follow our academic streams and provide

► Morning Classes

Morning classes are designed to help students become more confident learners. We limit the class options, so teachers and students can concentrate on making learning as fun and interactive as possible. Three of our academic streams are represented: Language, STEM (Science, Technology, Engineering and Mathematics), and Liberal Arts. Teaching methods and collaborative classroom activities ensure students exercise artistic and creativity abilities as well as entrepreneurial skills.

Language

Students in our AA program have the opportunity to learn French or English at an early age, and in a fun and interactive way.

Classes include:

- English as a Second Language
- French

STEM

Science, Technology, Engineering & Math
Learn how these subjects relate to each other and how they guide, influence and create the world we live in.

Classes include:

- Mighty Math
- Computers

Liberal Arts

We designed a course for AA students to learn all about their host country, Switzerland.

Classes include:

- Switzerland and the World

**AA students participate
in an overnight
mountain hut hiking trip**

**Paddleboarding, bowling,
swimming & more
in the afternoons**

**Evening socials include
disco night, talent show & a
country hoe down**

► Afternoon Activities

Afternoon activities are a mix of sports, games, arts and crafts, and music. Activities are led by our dedicated Recreation Staff who understand the importance of participation and inclusion. Emphasis is placed on encouraging these young students to try new things rather than keeping score or winning and losing. Several afternoons are dedicated to single activities where AA participates as one large group.

► Evening Socials

- Summer in Switzerland emphasizes a family style of interaction. All students are assigned to a Faculty Family, which is led by Faculty “parents.” Every evening students are engaged through Family Time, dorm nights or evening social events.

Afternoon Activities & Evening Socials

Bowling	Laser tag	Talent show
Nature walks	Movie & game night	Disco night
Swimming	SIS theater performance	Hoedown dance
Paddleboarding		

► Family Trips & Weekend Excursions

Several times during the Session, AA students participate in Family Trips, where all AA students and their Faculty parents enjoy a large group activity. These trips can be to places like Château d’Oex for bowling, Aquaparc for swimming, or Parc Adventure for a ropes course.

The Alpine Adventure group observes their “weekends,” or days off, on Tuesdays and Wednesdays. This ensures that the places they travel to will be open when they visit. The first weekend of the Session students will travel to two different cities in Switzerland. During the second weekend all AA students participate in an overnight mountain hut hiking trip. Students depart campus early in the morning, and, after a short drive, will hike to a mountain hut in the Swiss Alps. They have dinner, camp overnight, have breakfast the next morning and hike back down before returning to campus.

Family Trips

Bowling in Château-d’Oex
Bouveret and its Aquaparc
Parc Adventure in Aigle
Montreux and the Jazz Festival
Château de Chillon in Villeneuve

Weekend Excursions

Lausanne (Olympic Museum)
Zermatt (the Matterhorn)
Interlaken (Trummelbach Falls)

**all courses and activities are subject to change
depending on demand*

3 weeks, Session 1: **June 24 - July 13**

4 weeks, Session 1 (including Cultural Trip): **June 24 - July 19**

3 weeks, Session 2: **July 22 - August 9**

4 weeks, Session 2 (including Cultural Trip): **July 22 - August 15**

ages 12-14

alpine exploration

Teenagers in our Alpine Exploration (AE) program are given the opportunity to explore and discover through morning classes, afternoon activities and evening socials. Subjects offered are more in-depth and age-appropriate.

Exploring their environment through excursions, they can also make this a more memorable summer by participating in a cultural trip, supervised by SIS Staff, to a European destination with their new SIS friends.

For the morning academic program, students can choose classes from within a single stream, or they can explore new areas of study by taking classes from multiple streams. Either way, we are confident that students will find much to explore.

Boys and girls live in separate supervised dormitories on our Savoy campus, each with their own staff. The campus is a short walk to Leysin's town center with its restaurants, shops, cinema, and sporting facilities. During their time at SIS, students will become very familiar with our quaint Swiss mountain village.

► Morning Classes

AE classes are designed to engage students in age-appropriate content and to help them develop academic skills, broaden their interests and increase their knowledge. If students are especially interested in a subject area, they can select all of their classes from a single academic stream. Or, if they are interested in a broader academic enrichment experience, they can choose classes from various streams. Either way, we are confident that students will find our classes stimulating and appropriately challenging.

CHOOSE ONE OR MULTIPLE STREAMS:

Language

AE students can study and immerse themselves in the French language or improve their English language skills in our ESL (English as a Second Language) program.

Class options include:

- French Immersion
- French Classes
- English as a Second Language

STEM

Science, Technology, Engineering & Math

Teachers will introduce students to the relationship of these subjects and their relevance in human history and our daily lives. Courses are a mix of formal lessons, hands-on activities and small group projects

Class options include:

- Code Cracking
- Visual Programming
- Math-a-Magic

Arts & Creativity

Classes in this stream focus on fostering students' individuality and empowering students' imagination. Through music, art, acting and photography students will have various opportunities to explore and develop their creative and artistic talents.

Class options include:

- Art & Photography
- Piano/Guitar
- Music Mixing
- Theater/Voice

Entrepreneurship

Entrepreneurs are leaders who have initiative and are willing to take risks. Additionally, they are people who are creative, individualistic and disciplined. Classes in this stream are designed to help students discover these abilities within themselves.

Class options include:

- Numbers in Business
- Everything is Negotiable!

Liberal Arts

Carrying on the mission of Leysin American School, the SIS program strives to "develop innovative, compassionate and responsible citizens of the world." With that in mind, our Liberal Arts stream helps students process, comprehend and evaluate the world they are living in.

Class options include:

- What's cool about my country?
- Current Issues/World Affairs
- Superheroes in Debate

50
Over 50 activities
to choose from!

► Afternoon Activities

During afternoon activities students are able to engage in competitive or non-competitive activities, and adventure sports. We balance our active offerings with music, cooking, arts and crafts classes and continually introduce new activities to improve students summer experience. All of these options combine to help students exercise their minds as well as their bodies.

Evening Socials

- The Summer In Switzerland program emphasizes a family style of interaction, and all students are assigned to Faculty Families, which are led by Faculty “parents.” Every evening students enjoy family activities, dorm events or program socials.

Afternoon Activities & Evening Socials

Competitive sports:	Non-competitive sports:	Adventure sports:	Evening Socials:
Football	Swimming	Climbing	Student theater productions
Floor hockey	Horseback riding	Alpine hiking	Student talent shows
Tennis	Ice-skating	Parapenting	Visiting guest performers
Basketball	Yoga & Pilates	White water rafting	Themed dances

**This is only a selection of the activities offered.*

► Family Trips & Weekend Excursions

One afternoon per week students go on a family trip, allowing Faculty Families to spend quality time together. At SIS, we find that these family trips enable students to connect with each other, and with their faculty parents, in a meaningful way. On weekends students participate in excursions to cities in and around Switzerland. Each excursion includes a mandatory group activity, as well as free time for students to explore and hang out with friends.

Family Trips

Château de Chillon in Villeneuve
Aqua Parc in Bouveret
Fondation Pierre Gianadda art museum in Martigny
Swimming pools or spas
Nestlé-Cailler Chocolate Factory in Broc

Weekend Excursions

Lausanne (Olympic Museum)
Zermatt (the Matterhorn)
Geneva (United Nations & Red Cross Museum)
Bern (thousand year-old medieval city center that is the capital of Switzerland)
Lucerne (Swiss Museum of Transport & Communications)

**all courses and activities are subject to change depending on demand*

**Students can visit
Barcelona or the
Italian Riviera**

► Cultural Trips

At SIS, we know the benefits that come from introducing students to the larger world just outside our door. That's why SIS students have the opportunity to take part in organized European cultural trips.

Supervised cultural tours allow students to experience a new country and culture. They also help students to bond more closely with one another, a key goal of SIS. Staff accompany students on all trips as supervisors and mentors, further promoting that sense of community fostered on campus.

As a result of these experiences, SIS students gain a greater awareness of other cultures and a greater understanding of how their participation can make a difference to others.

3 weeks, Session 1: **June 24 - July 13**
4 weeks, Session 1 (including Cultural Trip): **June 24 - July 19**
3 weeks, Session 2: **July 22 - August 9**
4 weeks, Session 2 (including Cultural Trip): **July 22 - August 15**

alpine challenge

ages 15-18

Our oldest age group, Alpine Challenge (AC), lives at our beautiful Belle Époque Campus. With its sweeping panoramic view, the Belle Époque has dorm rooms for boys and girls in separate wings as well as the Grande Salle ballroom, The Cave student lounge, an art studio, workout room and classrooms.

Students in our AC program can challenge themselves academically in one of our five streams, or they can select classes from different streams to provide a broader experience. Classes in the AC program are designed to challenge students' thinking skills and stimulate their curiosity.

► Morning Classes

Our AC classes provide opportunities for older students to apply their skills, knowledge and creative energy to academic pursuits. Courses and teaching methods will challenge AC students to express ideas, work collaboratively and gain perspective. The content of each class is designed to be of high interest, currently relevant and thought-provoking.

CHOOSE ONE OR MULTIPLE STREAMS:

Language

AC students can study and immerse themselves in the French language or improve their English language skills in our ESL (English as a Second Language) program.

Class options include:

- French Immersion
- French Classes
- English as a Second Language

STEM

Science, Technology, Engineering & Math

Teachers will introduce students to the relationship of these subjects and their relevance in human history and our daily lives. Courses are a mix of formal lessons, hands-on activities, and small group projects.

Class options include:

- Math & Engineering
- Computer Programming

Arts & Creativity

Classes in this stream focus on fostering student's individuality and empowering student's imagination. Through music, art, acting and photography students will have various opportunities to explore and develop their creative and artistic talents.

Class options include:

- Art & Photography
- Piano / Guitar
- Theater / Voice

Entrepreneurship

Entrepreneurs are leaders who have initiative and are willing to take risks. Additionally, they are people who are creative, individualistic and disciplined. Classes in this stream are designed to help students discover these abilities within themselves.

Class options include:

- Business Math
- Everything is Negotiable!
- A walk through Kickstarter

Liberal Arts

Carrying on the mission of Leysin American School, the SIS program strives to "develop innovative, compassionate, and responsible citizens of the world." With that in mind, our Liberal Arts stream helps students process, comprehend and evaluate the world they are living in.

Class options include:

- Atrocities & Human Rights
- Global Leadership
- Spies & Secret Operations

50
Over 50 activities
to choose from!

► Afternoon Activities

During afternoon activities students are able to engage in competitive or non-competitive activities, and adventure sports. In addition, we continually introduce new activities with the aim of helping students to grow their experience and broaden their perspective. We balance our active offerings by offering cooking classes, arts and crafts, or music classes. All of these combine to enable students to exercise their minds as well as their bodies.

► Evening Socials

The Summer In Switzerland program emphasizes a family style of interaction, and all students are assigned to Faculty Families, which are led by Faculty “parents.” Every evening students enjoy family activities, dorm events or program socials.

SIS campus

Leysin American School, which is woven into the town of Leysin itself, brings together the best of old and new in architecture and facilities on two compact, interlocking campuses: The Belle Époque and Savoy.

Savoy Campus

Facts:

- **Dormitories separated by gender and age**
- **Library**
- **Classrooms**
- **Magic Mountain Athletic Center: Gym, dance studio, fitness room, climbing wall**
- **Dining hall**
- **“Cafe 7” student social center, media and games**
- **Performing arts center**
- **Visual arts center**
- **Science center**
- **Travel office**
- **Health center**

Belle Époque Campus Facts:

- **IB campus**
- **Grand Hotel train station connected to the building**
- **Home to the LAS visitor’s center**
- **20 fully-equipped modern classrooms**
- **Dining hall**
- **Fitness room**
- **Visual arts center**
- **Science center**
- **“The Cave” student social center, media and games**
- **Health center**

Savoy Campus

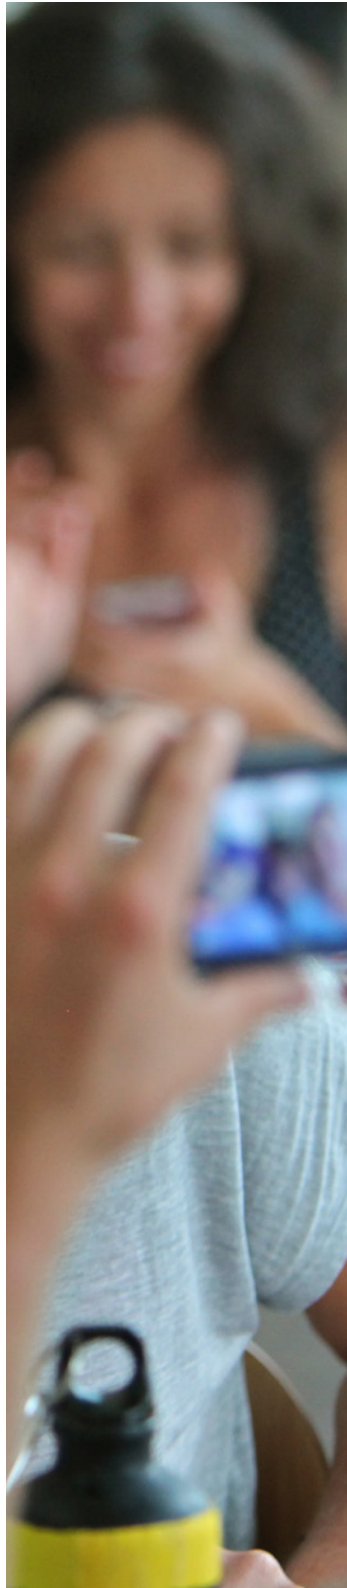

The Savoy Campus is home of the many Alpine Adventure and Alpine Exploration classes, SIS offices and the dining room. The dorm itself contains 10 faculty apartments, 32 student rooms and 4 student lounges.

Belle Époque Campus

The Belle Époque is the home of the Alpine Challenge program. This campus includes classes, a dining room, the Grande Salle concert hall, the Cave student café and separate dorms for boys and girls.

our faculty

International Faculty

Our faculty share a single goal: a dedication to the growth, education and well-being of the students twenty-four hours a day.

Teachers get students excited and involved in their classes, creating a rich learning experience. When they're not in the classroom, they can be found with students throughout the day, leading activities or chaperoning trips.

Faculty Family

Faculty Family has been a key part of the SIS tradition for many years and serves as a central link in "belonging" to the community.

A Faculty Family provides an emotional and social reference point for students. Composed of teachers with students of similar ages, it offers all students a chance to share thoughts and feelings, while building a sense of trust in their "family."

**Faculty Families are made
up of similar ages, different
nationalities & gender**
